## Hive: COM (Customers Own Material)

The Hive products and product line may be available in COM (Customers Own Material). Due to the complexity of manufacturing which requires certain fabric characteristics and properties, it is critical that we test the actual fabric on all COM requests. Below is the procedure for Hive COM requests:

1. Please complete our COM material form. Contact Customer Service for the form.
2. Place a swatch of your material in the space allotted on the COM form.
3. Two yards of fabric are required for proper testing.
4. Please send the two yards of fabric to be tested along with the completed COM form. The COM form must be sent with the fabric to properly track and identify your fabric.
