ORDERING PROCEDURES

Overview

Advance strives to give you a fast and efficient method of obtaining machines, parts and accessories. The following are policies and procedures:

Ordering

Advance dealers may place their orders with Customer Service via CustomerZone, telephone, or e-mail.

You may need to speak to a Customer Service Representative to verify part numbers or select the right machines, parts or accessories. The following is the Customer Service contact information:

| | |
|--|--|
| CustomerZone: | www.nilfisk.us |
| Toll-free Customer Service phone number: | 800-989-2235 |
| Customer Service e-mail address: | csorders@nilfisk.com |

All orders placed using CustomerZone, e-mail, or phone will be confirmed via e-mail and will be viewable on the CustomerZone. You can sign up for CustomerZone by visiting www.advance-us.com.

When placing orders by telephone or e-mail, include:

- Purchase order number
- “Ship to” address
- The nine-digit customer account number
- Part number for all machines, parts, and accessories
- Item descriptions as listed in price schedules
- Any special shipping instructions e.g., air, liftgate, inside delivery, appointment required.
(Note: Dealer is responsible for special shipping costs.)
- Authorized signature

Please note - Advance cannot “add on” items to an order once it has been processed. “Add On” items will be entered as a new order.

Minimum Parts Order Program

\$10 handling fee will be assessed to all orders under \$200 that are submitted by email or phone. Freight will be charged and added to invoice for all orders. The minimum parts or accessories order is \$100 on shipments when placed electronically on CustomerZone. Any orders below \$100 will incur a \$10 handling fee plus freight charges. Orders on CustomerZone that are \$100 or above will receive free ground freight.

Drop-Ship Program

Advance will not drop-ship machines, parts or accessories outside the ordering dealer’s servicing area without prior approval from the local Nilfisk Sales Representative.

Shortage

Verify the number of packages received before signing the freight bill of lading. Carriers sign for the accepted number of cartons or bundles as indicated on the bill of lading. If there is a shortage at the time of delivery, note the shortage on the original copy of the bill of lading, along with the driver’s signature and call Customer Service to report shortage within 30 days of receipt.

Damage in Transit

All shipments should be inspected immediately upon receipt. Do not accept any shipment showing external evidence of damage unless the freight carrier makes proper notation on your copy and their copy of the freight bill. Your shipment is carefully packed according to freight classification regulations and inspected before leaving our warehouse. Notify Advance about any freight that is refused due to damage. All apparently “good” freight must be inspected and any concealed damage must be reported to Advance Customer Service within three (3) days of receipt. Any claims made after this time period will not be honored unless claim is recuperated from the freight carrier.

ORDERING PROCEDURES, Continued

Freight Program

Orders will be shipped F.O.B. Shipping Point, Shippers Choice. Third party and collect orders are F.O.B. Dock. Freight will be handled as follows:

| Machine | |
|---|---|
| Dealers' 2022 net purchased volume < US \$100,000 AND Total Order < US \$15,000 | Dealer's 2022 net purchased volume > US \$100,000 AND Total Order > US \$15,000 |
| Prepaid by Nilfisk, Inc. and added to invoice | Prepaid by Nilfisk, Inc. |

| Parts and Accessories | |
|---|---|
| Total Order for email or phone = Prepay and add to invoice OR Total Order < US \$100 if order is placed on CustomerZone | Total Shipping Ground Order > US \$100 if order is placed on CustomerZone |
| Prepaid by Nilfisk, Inc. and added to invoice | Prepaid by Nilfisk, Inc. |

If freight requirement is other than above, it will be considered special freight with handling charges such as Next Day Air, Liftgate/Inside delivery charges or expedited delivery being prepaid and added to the invoice.

Freight Routing

Orders are shipped F.O.B. Shipping Point. Third party and collect orders are F.O.B. Dock. Our Logistics Contractor will consign all shipments. If you have specific requirements or need special services, contact an Advance Customer Service Representative. Any additional costs associated with special freight requests are the responsibility of the dealer and will be invoiced accordingly. (includes, but is not limited to, expedited freight, liftgates, inside deliveries, etc.)

Parts Shipments

All expedited orders must be received by 2 p.m. CST in order to be eligible for same day shipment. While same day shipment is not guaranteed, all expedited orders where parts are in stock will ship either same day or within 24 hours.

All standard parts orders where parts are in stock will be shipped within 72 hours of order placement.

Ship-ins/Ship-outs

Dealers will occasionally sell to customers with multiple locations. When the end user's location falls outside the selling Dealer's service area, the selling Dealer must contact the Dealer who handles the end user's location (installing Dealer) to install the equipment. The selling Dealer should also make sure that the end user receives appropriate warranty and service support.

The recommended procedure is:

1. The selling Dealer informs the installing Dealer of the sale and arranges for local support.
2. The selling Dealer informs the end user of the arrangements made with the installing Dealer.
3. The selling Dealer ships machines to the installing Dealer for proper setup and installation. When finished, the installing Dealer sends the original Installation Warranty Card to the Company, with a copy to the selling Dealer.
4. Upon verification of the installation, the selling Dealer promptly compensates the installing Dealer. Whether the installing Dealer is required to do a demonstration should be a factor in calculating the installing Dealer's compensation.

Price Change Protection

Dealers may apply for price protection on quoted business. Requests for price protection must be applied for within fourteen days of the **effective price change date** and directed to the Sales Director for approval.

An order placed under this program must include a copy of the original quotation, end-user purchase order and the Sales Director's price protection approval.

FLOOR PADS FOR SCRUBBERS AND FLOOR MACHINES

Scrubber, burnisher and floor machine pads

| <u>Part Number</u> | <u>Description</u> | |
|--------------------|--|---------------|
| Seebelow | Floor pads for scrubbers, burnishers and floor machines | \$0.00 |

We offer a wide range of floor pads for daily cleaning, burnishing and project work.

Scrubbing pad are organized from least aggressive to most aggressive.

Brown and black stripping pads are used for conventional chemical stripping applications.

Grout pads are a good solution for daily cleaning and work to dig into grout line to loosen soils. These are a less expensive option to using brushes.

Maroon pads are aggressive pads typically used on orbital floor machines and scrubbers to remove floor finish.

Melamine pads are a great problem solver to hard to clean soils and marks on the floor.

Sanding screens are used to abrade wood floor finishes for recoating.
