MotoMop™		
<i>The MotoMop™ cleans better, faster, safer. The MotoMop™'s engineered design leaves the floor dry reducing the potential for costly slip and fall accidents. Designed for all facilities for effective entrance, restroom, food service, grocery, guest or patient room maintenance. Negates the need for costly mops & signage that inconveniently restricts public access.</i>		
	E84700-00 MotoMop™, Li-ion battery, cylindrical	  \$2,325.00
	<i>Includes one (1) Li-ion battery, charger & cylindrical soft black brush</i>	
	E84700-8S MotoMop™, Li-ion battery, cylindrical	  \$2,325.00
<i>Due to DOT regulations in the US, labeling changes for use of small pack ground transportation (UPS/FedEx Ground). This SKU must be utilized. Freight will be added to Invoice.</i>

GeneSys™ Mid-Size Scrubber

The GeneSys™ Mid-Size Scrubber is the Next Generation of Cleaning Systems for medium and large area cleaning. Clean faster and with less effort due to its best-in-class cleaning performance specifications, SoliChem™ Technology and recovery system featuring Airoflex® squeegees standard. SoliChem™ can reduce daily cleaning costs by up to 80% versus traditional liquid chemicals while Airoflex® increase vacuum performance by up to 40%. GeneSys™ also offers problem-solving innovations like the Touch Encoder with EfficiencyIQ™ and Fortify™ Asset Protection and Management Suite.

GeneSys™ Mid-Size Scrubbers come with batteries, on-board charger, pad driver(s), case of pH7 for SoliChem™ and case of Fortify™ Foam Control.

Optima XR High Speed Propane Burnisher

The Optima XR (Xtended Run) Propane Burnisher is designed to deliver the ultimate in high-gloss shine while the exclusive, high-efficiency fuel delivery system delivers up to 27% longer run time per tank versus leading competition. Powered by Kawasaki's 603 CC V-Twin engine, performance is enhanced with premium cast aluminum deck, air integrated fuel delivery system, low emission catalytic muffler, low oil shutdown, and large 12V starting battery. Features an ergonomically designed handle that is easily adjusted for enhanced operator comfort and reduced fatigue. Centrifugal clutch and emissions monitoring system are optional accessories. EPA Certified emission levels.

Propane Stripping Machines

Betco® provides the most productive stripping machines available today. Built with a tough steel frame and powered by Kawasaki's 603 CC V-Twing engine, these propane powered machines provide the performance and durability required to quickly handle large areas and excessive finish build ups. Performance is enhanced with an air integrated fuel delivery system, low emission catalytic muffler, low oil shutdown, 12V battery start, centrifugal clutch, and emission monitoring system. Features an ergonomically designed handle that is easily adjusted for enhanced operator comfort and reduced fatigue.

Crete Rx™ CM30 Pre-Polished Concrete & Terazzo Maintainer

The Crete Rx™ CM30 Pre-Polished Concrete & Terazzo Maintainer delivers excellent Crete Rx performance at a very low purchase price. With its dual-direction, high RPM design and up to 330 pounds of down pressure, the CM30 hones and polishes pre-polished concrete in as little as 1-2 passes with Betco's Crete Rx system. Additionally, it will deliver years of safe, low emission operation with a thick, powder-coated frame and durable 18 HP EPA/CARB certified engine. Additional features include an ergonomic, adjustable handle, tip-back wheel for transport and a tool tray.

E29805-00 Crete Rx™ CM30 Pre-Polished Concrete & Terazzo Maintainer   \$18,714.00

Includes 30" Deck, 10" Drive Plates, and UL Listed Propane Tank.

Orbital Floor Machines

Crewman™ Orbital Floor Machines provide the greatest head pressure to deliver fast results. When equipped with a maroon surface prep pad, the Crewman™ Orbital Machine uses a 3,400RPM motor to cut through multiple layers of the toughest floor finish in just one pass. This machine can also perform sanding and screening operations as well as wet stripping and scrubbing applications. All models are available with an optional dust containment system to help keep your work area clean.

Dual Speed Floor Machine

Betco®'s dual speed floor machines are built with a heavy-duty 1.5 hp motor to handle big jobs in tough environments. With RPM speeds of 175 or 330, these machines offer the flexibility to perform multiple tasks. The base and motor cover are constructed of rotationally molded polyethylene material which helps prevent damage. The handle is fully adjustable providing comfortable operation and reduces operator fatigue.
