12"	15	JMB3615	\$120.06	8 •
18"	22	JMB3622	\$140.68	11 •

### Layout Kits

Pre-designed layout kits allow you to create quick compartments in the drawers to keep smaller items organized. Partitions run front-to-back and attach directly to the bottom of the drawer. Dividers easily slide into place and can be moved or removed as needed. Partitions and dividers feature a galvanized finish. Installs easily in the field. Standard layout kits are listed below.

# WORKBENCH COMPONENTS

## MODULAR CABINET WORKBENCHES

Upgrade any modular drawer cabinet into a complete work bench set up. Start with either a standard or slender wide modular drawer cabinet. (see modular cabinets catalog for cabinet options)

Build a basic work bench by adding a work surface and a panel leg. Add either an adjustable footrest, a stringer, or an under-counter shelf to help stabilize your new work bench.

Workbenches can also be built using two modular drawer cabinets on either end of the work surface. Add other accessories to create the perfect workbench for your needs.
