Notes

- 2 According to the manufacturer, new batteries do not develop full energy (run time) potential until after a couple months of use. This "burn-in" period is usually 50 charge cycles.
Average run times are 3.4 hours for standard and 4.8 hours for heavy duty batteries.

Model 6100 Continuous Runtime Chart (220 AH Battery Package):

	Run Time
Sweeping (Main and single side brush)	3.5 hours
Sweeping (Main and dual side brush)	3.25 hours

The above runtimes are guidelines. Actual times will vary based on floor conditions, final machine configuration and usage.

- 3 Should the customer wish to use their own battery supplier, they have two options:
a. Buy batteries to fit in our steel case - see below for internal dimensions.
b. Buy their own steel case battery (there is no deduction for this) - see below for external dimensions.

	Width	Height
External Dimensions:	22.18 in. 563 mm	21.24 in. 539 mm
Internal Dimensions:	21.81 in. 554 mm	20.88 in. 530 mm

An extra steel case can be ordered without batteries; part number 369483.

Battery compartment is 21.62 in. (550 mm) x 22.24 in. (565 mm) x 14.50 in. (365 mm).
Max weight 480 lbs (220kg).

3 Carpet Cleaning Package includes either standard or extended run time batteries (whichever is chosen) and includes Union Mix (Carpet Brush) and Battery Acid Containment Bags.

4 When dual side brushes are chosen, it is recommended to use the extended run time batteries kit #80131 with this option.

5 Recommended for light dust applications only. Ordering the Live Wand option will reroute the airflow permanently through a "live wand" that is always available to the operator for detailing or edge cleaning. This will remove the High Air Flow system and will replace it with the Live Vacuum Wand. No additional charge.

6 Vacuum wand to be installed on front cover. Order only when purchasing the standard machine with the High Air Flow System. When any of the part numbers 373143 or 373146 are ordered, the Live Vacuum Wand is standard and it is not possible to order this option. Kit supplies a hose and wand that is stored onboard and connects for use.

7 This will remove the Panel Filter System with the Bag Filter System. This is recommended only for carpet applications and very light dust applications.

8 Recommended for use with paper filter collector bag or for an additional level of filtration. This is a "Custom" option. Please keep in mind that this may require a longer delivery time.

9 Wide Trac Pneumatic Tire and Caster Kit is to better equip machines for outdoor use.

10 Only Union Mix Brush is available with Carpet Cleaning Equipment Pkg

11 Additional hard copy Operator and Parts Manuals can be ordered or digital copies can be downloaded from www.Tennantco.com.

12 Pad wrap available only in the Continental US and is the default packaging method. Customer MUST order Skid w/Carton, Stackable or Skid w/Stretch Wrap if WITHOUT BATTERY is selected. Skid w/Carton, Stackable is mandatory when shipping to AK and HI and added at No Charge when shipping to these locations.

NEWMACHINE WARRANTY

Tennant Company warrants to the original purchaser, for the above-stated periods (whichever occurs first), that machines will be free from defects in workmanship and material, provided that machines are installed, operated, and maintained in accordance with Tennant written manuals or other instructions. This warranty does not apply to damage or failure caused by accident, freight damage, misuse, negligence, abuse, improper repair, or maintenance of the machines. Please refer to the Operator Manual for proper machine operation and maintenance instructions.

The warranty period begins on the installation date at the end-user site. A Machine Installation/Warranty Report form included with the Operator Manual must be completed and returned immediately at the time of purchase. If proof of purchase is unavailable, the warranty begins ninety (90) days after original sale to an Authorized Tennant dealer.

Demonstrator machines purchased from Tennant carry the same warranty as a new machine.

LABOR AND TRAVEL WARRANTY

Tennant will, at its option, provide labor and travel or pay for outside repair for the above-stated periods.

PARTS WARRANTY

Parts replaced or repaired under this warranty are guaranteed for the remainder of the warranty period. The parts warranty on batteries is pro-rated from the Tennant Company shipping date. Consumable parts, expected to wear from normal use, are not covered under the parts warranty. Items that are covered on a prorated basis includes tires (1 year) on rider machines. Battery chargers and accessories are warranted for one (1) year.

REPAIR PARTS WARRANTY

After the warranty period expires, repair parts supplied by Tennant are warranted against defects for the period of ninety (90) days, with the exception of batteries. Lithium-ion and Lead acid batteries are pro-rated for twelve (12) months. TPPL batteries are non-pro-rated for eighteen (18) months.

T7AMR, T380AMR, T600 & T600e lithium-ion batteries are warranted for five (5) years non-pro-rated or 2000 charge cycles (whichever comes first).

All AGM and Gel batteries are pro-rated for ninety (90) days. The repair parts warranty only covers parts, not labor or travel (see service labor section for terms).

SERVICE LABOR WARRANTY

Labor and travel performed by a Tennant service representative are warranted for thirty (30) days from the date the repairs are completed. This policy does not cover work performed by any service company other than Tennant and is restricted to the specific repair operation or component for which a claim is made.
