INDEPENDENT AUDITOR'S REPORT

November 4, 2020

To the Board of Education of
Eastern Suffolk Board of Cooperative Education Services

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Eastern Suffolk BOCES (the BOCES) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the BOCES' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the BOCES as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedules of contributions – pension plans, proportionate share of the net pension liability (asset), and changes in total OPEB liability and related ratios be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the BOCES' basic financial statements. The other information as listed in the accompanying table of contents, as required by the New York State Education Department, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards listed in the accompanying table of contents is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The other information included as listed in the accompanying table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

INDEPENDENT AUDITOR'S REPORT

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2020 on our consideration of the BOCES' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the BOCES' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the BOCES' internal control over financial reporting and compliance.

Management's Discussion and Analysis June 30, 2020

The following is a discussion and analysis of the BOCES' financial performance for the year ended June 30, 2020. This section is a summary of the BOCES' financial activities based on currently known facts, decisions and conditions. It is also based on both the BOCES-wide and fund-based financial statements. This section is only an introduction and should be read in conjunction with the BOCES' financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The BOCES' total net position, as reflected in the BOCES-wide financial statements, decreased by \$59,409,110. The primary factor contributing to this decrease was due to the expense of Other Postemployment Benefits in the amount of \$76,121,586.
- The current total net position is a deficit in the amount of \$776,964,186. The deficit is primarily the result of GASB Statement 75, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," which required the recognition of an unfunded liability of \$1,000,721,947 at June 30, 2020. Since New York State Laws provide no mechanism for funding the liability, the subsequent accruals are expected to increase the deficit in subsequent years.
- During the year, the BOCES had expenses in excess of program revenues of \$61,596,672. In addition, the general revenues were \$2,187,562, which included \$830,099 in interest earnings
- Program revenues included \$377,726,270 in Charges for Services and \$13,552,479 in Operating Grants and Contributions.
- BOCES total General Fund revenue for 2020 was \$368,948,173. \$301,817,108 of these revenues are from the billings for administration and other services to the component districts of the BOCES.
- The BOCES is required to return surplus billings in the subsequent year. During 2020-2021, \$21,635,787 of the surplus from the prior year will be returned. During 2019-2020, \$13,942,821 of the surplus from the prior year was returned.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (MD&A) (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the BOCES.

- The first two statements are *Government-wide* financial statements that provide both *short-term* and *long-term* information about the BOCES *overall* financial status.
- The remaining statements are fund financial statements that focus on individual parts of the BOCES, reporting the BOCES' operations in more detail than the BOCES-wide statements. The fund financial statements concentrate on the BOCES' most significant funds.

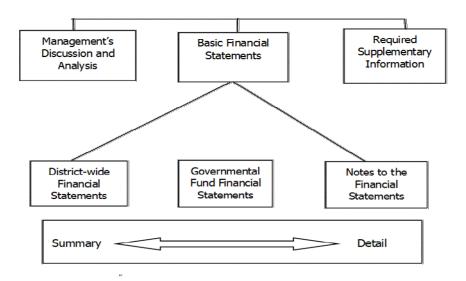

Management's Discussion and Analysis June 30, 2020

- The *governmental funds statements* tell how basic services, such as regular and special education, were financed in the *short-term*, as well as what remains for future spending.
- Fiduciary funds statements provide information about the financial relationship in which the BOCES acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the BOCES budget for the year.

Figure A-1 shows how the various sections of this annual report are arranged and related to one another.

Figure A-1

BOCES-Wide Statements

The BOCES-wide statements report information about the BOCES as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the BOCES' assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two BOCES-wide statements report the BOCES net position and how they have changed. Net position - the difference between the BOCES assets and liabilities - are one way to measure the BOCES financial health or position.

- Over time, increases or decreases in the BOCES net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the BOCES overall health, you need to consider additional nonfinancial factors, such as changes in the condition of school buildings and other facilities.

In the BOCES-wide financial statements, the BOCES' activities are shown as Governmental activities. Most of the BOCES' basic services are included here, such as regular and special education, instructional support, and administration. Charges for Services finance most of these activities.

Management's Discussion and Analysis June 30, 2020

Fund Financial Statements

The fund financial statements provide more detailed information about the BOCES funds, focusing on its most significant or "major funds", not the BOCES as a whole. Funds are accounting devices the BOCES uses to keep track of specific sources of funding and spending on particular programs:

- Certain funds are required by State law and by bond covenants.
- The BOCES establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Federal grants).

The BOCES has two types of funds:

- Governmental Funds: All of the BOCES' basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that allows the reader to determine whether there are more or fewer financial resources that can be spent in the near future to finance the BOCES' programs. Because this information does not encompass the additional long-term focus of the BOCES-wide statements, additional information can be found on pages 17 and 19 which reconciles the BOCES-wide financial statements to the fund financial statements.
- Fiduciary Funds: The BOCES is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds. The BOCES is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The BOCES excludes these activities from the BOCES-wide financial statements because it cannot use these assets to finance its operations.

Management's Discussion and Analysis June 30, 2020

Figure A-2 Condensed Statement of Net position

			Increase	Percent
	Fiscal Year 2020	Fiscal Year 2019	(Decrease)	Change
Current and other assets	\$ 181,051,830	\$ 148,528,645	\$ 32,523,185	21.9%
Net pension asset	13,864,956	9,513,181	4,351,775	45.7%
Capital assets	66,523,539	69,138,954	(2,615,415)	-3.8%
Total assets	261,440,325	227,180,780	34,259,545	15.1%
Deferred outflows of resources	256,019,039	100,073,411	155,945,628	155.8%
Current liabilities	99,174,027	73,591,816	25,582,211	34.8%
Net pension liability	40,353,725	10,930,767	29,422,958	269.2%
Other long-term liabilities	1,049,737,827	917,928,046	131,809,781	14.4%
Total liabilities	1,189,265,579	1,002,450,629	186,814,950	18.6%
Deferred inflows of resources	105,157,971	42,358,638	62,799,333	148.3%
Deferred filliows of resources				110.070
Net position:				
Investment in capital assets	56,965,621	61,282,766	(4,317,145)	-7.0%
Restricted	70,571,927	66,435,672	4,136,255	6.2%
Unrestricted	(904,501,734)	(845,273,514)	(59,228,220)	7.0%
Total net position	\$ (776,964,186)	\$ (717,555,076)	\$ (59,409,110)	8.3%

Unrestricted net position decreased to (\$904,501,734) for the year ended June 30, 2020, down (\$59,228,220) from the (\$845,273,514) balance for 2019. This resulted primarily from the increase in the other post-employment benefits liability of \$132,968,648 from changes in assumptions of GASB 75 and an increase in current assets of \$32,523,185 along with a change in deferred pension and OPEB outflows of \$155,945,628.

Management's Discussion and Analysis June 30, 2020

Figure A-3 Changes in Net Position

The results of this year's operations as a whole are reported in the Statement of Activities in a programmatic format in the accompanying financial statements. A summary of this statement for the years ended June 30, 2020 and 2019 is as follows:

						Increase	Percent
	Fis	scal Year 2020	Fiscal Year 2019		(Decrease)		Change
Revenues							
Program revenue:							
Charges for services	\$	377,726,270	\$	362,540,473	\$	15,185,797	4.2%
Operating grants		13,552,479		19,093,752		(5,541,273)	-29.0%
General revenue:							
Use of money and property		830,099		902,998		(72,899)	-8.1%
Sale of property and compensation for loss		638,636		395,098		243,538	61.6%
Miscellaneous		718,827		802,084		(83,257)	-10.4%
Total revenue	\$	393,466,311	\$	383,734,405	\$	9,731,906	2.5%
Expenses							
Administration	\$	47,196,778	\$	42,077,142	\$	5,119,636	12.2%
Occupational instruction		48,151,344		40,522,065		7,629,279	18.8%
Instruction for special education		232,251,522		208,068,034		24,183,488	11.6%
Itinerant services		8,720,086		6,938,013		1,782,073	25.7%
General instruction		14,113,307		15,657,380		(1,544,073)	-9.9%
Instruction support		28,746,686		26,053,422		2,693,264	10.3%
Other services		72,259,522		71,398,318		861,204	1.2%
Internal services		291,735		105,794		185,941	175.8%
Food Service Program		1,144,441		1,140,850		3,591	0.3%
Total expenses		452,875,421		411,961,018		40,914,403	9.9%
Changes in net position	\$	(59,409,110)	\$	(28,226,613)	\$	(31,182,497)	110.5%

Changes in Net Position

The BOCES' revenues increased by \$9,731,906 in 2020 or 2.5%. The major factors that contributed to the increase were:

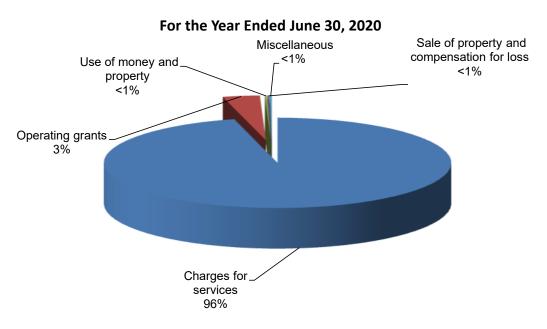

- Charges for Services increased by \$15,185,797 as a result of increased costs reflected in the increases in expenses for the year.
- A decrease in Operating Grants by \$5,541,273 due to a reduction in the grant programs.

Management's Discussion and Analysis June 30, 2020

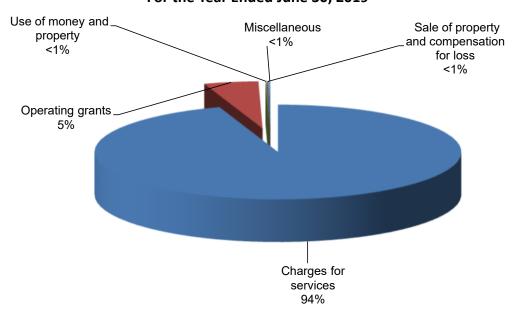

The BOCES' expenses for the year increased by \$40,914,403 or 9.9%.

• The primary reasons for this increase were due to a \$24,183,488 increase for Instruction for special education and a \$7,629,279 increase for Instruction for Occupational instruction.

Figure A-4 Revenue Sources

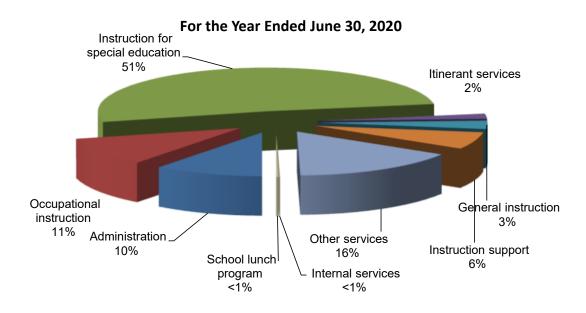

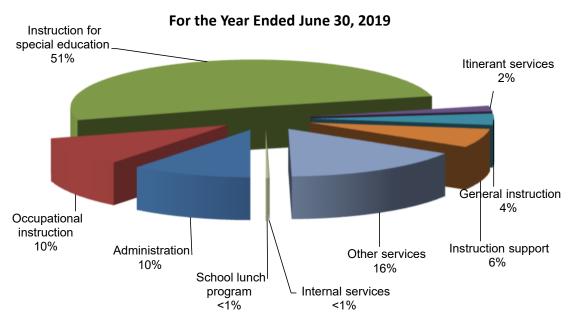

For the Year Ended June 30, 2019

Management's Discussion and Analysis June 30, 2020

Figure A-5 Sources of Expenses

Management's Discussion and Analysis June 30, 2020

At June 30, 2020, the BOCES' governmental funds reported combined fund balance of \$81,879,951 which is an increase of \$6,938,921 over the prior year. This is due to an excess of revenues over expenditures for the year. A summary of the change in fund balance by fund is as follows:

						Increase
	Fisc	cal Year 2020	Fiscal Ye	ar 2019	(1	Decrease)
General Fund

Management's Discussion and Analysis June 30, 2020

General Fund Budgetary Highlights

- The difference between the original approved budget of \$366,627,818 and the amended budget of \$395,271,307 is \$28,643,489 or 7.8%. The increase is due to the request for additional services from component school districts. The budgetary comparison information can be found on Page 56 which presents both original and amended budget totals compared with actual results for the General Fund for the year ended June 30, 2020.
- Actual expenditures and other financing uses, were under the amended budget by \$30,295,722 or 7.7%, and actual revenues and other financing sources were below the amended budget by \$25,885,609 or 6.5%.

Capital Assets

At June 30, 2020 and 2019, the BOCES had \$66,523,539 and \$69,138,954, respectively, invested in a broad range of capital assets including buildings, transportation equipment, computer equipment, and furniture and fixtures. A summary of the BOCES' capital assets, net of accumulated depreciation at June 30, 2020 and 2019, is as follows:

Capital Assets (Net of Depreciation)

					Increase
Category	Fiscal Year 2020		scal Year 2020 Fiscal Year 2019		 (Decrease)
Land	\$	6,306,650	\$	6,306,650	\$ -
Technology in process		302,495		882,242	(579,747)
Construction in progress		-		7,014,371	(7,014,371)
Buildings and improvements		31,362,867		25,902,692	5,460,175
Equipment and furniture		28,551,527		29,032,999	(481,472)
Total	\$	66,523,539	\$	69,138,954	\$ (2,615,415)

The BOCES' Capital Assets, Net of Accumulated Depreciation, is for the purpose of this report, the assets owned and purchased by the BOCES less the accumulated depreciated value over the useful life of the item.

Depreciation expense for the BOCES totaled \$10,996,144 and \$10,914,059 for the years ended June 30, 2020 and 2019, respectively.

Management's Discussion and Analysis June 30, 2020

Long-Term Liabilities

At June 30, 2020 and 2019, the BOCES had total long-term debt of \$1,049,737,827 and \$917,928,046, respectively. A summary of the long-term debt at June 30, 2020 and 2019, is as follows:

						Increase
Category	F	Fiscal Year 2020		0 Fiscal Year 2019		(Decrease)
						_
Installment Purchase Debt	\$	6,536,047	\$	4,717,204		1,818,843
Compensated Absences		36,977,588		37,130,488		(152,900)
Other Postemployment Benefits		1,000,721,947		867,753,299		132,968,648
Deferred Payment Plan Debt		2,775,588		2,657,254		118,334
Workers' Compensation Claims Payable		2,480,374		5,188,071		(2,707,697)
Energy Performance Contract		246,283		481,730		(235,447)
Total	\$	1,049,737,827	\$	917,928,046	\$	131,809,781

FACTORS BEARING ON THE BOCES FUTURE

The state of the economy due to the COVID-19 pandemic weighs heavy on both school districts and BOCES. Budgeting for the future will be extremely difficult due to uncertainty with state aid and potential future aid reductions. ESBOCES will continue to carefully monitor financial conditions and adjust as necessary to future budget challenges.

The general fund budget for the 2020-2021 fiscal year was approved for the amount of \$382,548,345 or 4.34% increase from the previous year's original budget. This increase was primarily due to increases in the special education budget.

In 2019-20, Eastern Suffolk BOCES continued its work on the Middle States Accredited Agency-wide Strategic Plan. The nine Strategic and Operational Action Plans have been refined and vetted by both external and internal stakeholders to ensure they continue to align with the mission and beliefs of the Agency. The Agency's commitment to strategic goals provides a framework that will be the road map for the agency's activities through July 2024.

CONTACTING THE BOCES' FINANCIAL MANAGEMENT

This financial report is designed to provide the BOCES' citizens, taxpayers, customers, investors, and creditors with a general overview of the BOCES' finances and to demonstrate the BOCES' accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Eastern Suffolk BOCES, 201 Sunrise Highway, Patchogue, New York 11772.

Reconciliation of Total Governmental Fund Balance to Government-Wide Net Position June 30, 2020

A reconciliation of total governmental fund balance to government-wide net position follows:	
Total governmental fund balance	\$ 81,879,951
Amounts reposted for governmental activities in the Statement of Net Position and difference because:	
The cost of building and acquiring capital assets (land, building, equipment) financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the balance sheet. However, the Statement of Net Position included those capital assets among the assets of the BOCES as a whole, and their original costs are expensed annually over their useful lives.	
Original Cost of Capital Assets	158,700,235
Accumulated Depreciation	(92,176,696)
	66,523,539
Proportionate share of long-term asset and liability associated with participation in the State's retirement systems are not current financial resources or obligations and are not reported in the funds.	
Net Pension Asset - Proportionate Share	13,864,956
Deferred Outflows - Pensions	70,821,800
Net Pension Liability - Proportionate Share	(40,353,725)
Deferred Inflows - Pensions	<u>(20,282,800)</u> 24,050,231
Long-term liabilities are not due and payables in the current period and, therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:	
Deferred Payment Plan Debt	(2,775,588)
Installment Purchase Debt	(6,536,047)
Accrued Interest	(2,148)
Other Postemployment Benefit Liabilities	(1,000,721,947)
Deferred Outflow - OPEB Deferred Inflow - OPEB	185,197,239
Energy Performance Contract	(84,875,171) (246,283)
Workers' Compensation Claims	(2,480,374)
Compensated Absences Payable	(36,977,588)
NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ (776,964,186)

Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balance to the Statement of Activities

For t	he Year	Ended	l June	30,	2020
-------	---------	-------	--------	-----	------

Net changes in fund balance - Total governmental funds	\$	6,938,921
--	----	-----------

Capital related differences

Capital Outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are capitalized and shown in the Statement of Net Position and allocated over their useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which depreciation expense and loss on disposal exceeded capital outlays in the period.

Depreciation expense	(10,996,144)	
Loss on disposal	(675,076)	
Capital outlays	9,055,805	(2,615,415)

Long-term liability transaction differences

(Increases) decrease in long-term liabilities and deferred outflows/inflows of resources reported in the Statement of Activities do not provide for or require the use of current financial resources and therefore, are not reported as revenues or expenditures in the governmental funds.

Changes in long-term liabilities for the year end consisted of:

Installment purchase debt	(1,818,843)	
Deferred payment plan debt	(118,334)	
Energy performance contact	235,447	
Other Post employment liabilities	(47,916,375)	
Accrued interest on energy performance contract	2,053	
Compensated absences	152,900	
Workers' compensation claims	2,707,697	(46,755,455)

(Increases) decreases in proportionate share of net pension asset/liabilities and deferred outflow/inflow of resources and reported in the Statement of Activities do not provide for or require the use of current financial resources and therefore, are not reported as revenues or expenditures in the governmental funds.

leachers' retirement system	(9,214,442)

Notes to the Financial Statements June 30, 2020

1. SUMMARY OF SIGNFICANT ACCOUNTING POLICIES

The financial statements of the Eastern Suffolk BOCES (BOCES) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) for governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies used by the BOCES are as follows:

Reporting Entity

The BOCES is governed by the Education Law and other laws of the state of New York. The governing body is the Board of Education (the "Board"). The scope of activities included within the accompanying financial statements are those transactions which comprise its operations, and are governed by, or significantly influenced by, the Board.

Boards of Cooperative Educational Services (BOCES) were established by New York State legislation in 1948 to enable smaller school districts to offer more breadth in their educational programs by sharing teachers. In 1955, legislation was passed allowing BOCES to provide vocational and special education. A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services and programs to provide educational and support activities more economically, efficiently and equitably than could be provided locally. The BOCES provides instructional and support programs and services to all 51 school districts located in Eastern Suffolk, New York.

The Board is comprised of 15 representatives elected by the 51 component school boards.

The BOCES' programs and services include special education, career and technical education, academic and alternative programs, summer schools, staff development, instructional computer services, educational communication, and cooperative purchasing.

The financial statements include all funds of the BOCES as well as the component units and other organizational entities determined to be includable in the BOCES' financial reporting entity.

The decision to include a potential component unit in the BOCES' reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the Extraclassroom activity funds are included in the reporting entity.

Extraclassroom Activity Funds

The extraclassroom activity funds of the BOCES represent funds of the students of the BOCES. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the BOCES with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found at the BOCES business office. The BOCES accounts for assets held as an agent for various student organizations in an agency fund.

Notes to the Financial Statements June 30, 2020

Basis of Presentation

(a) BOCES-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present information about the overall financial activities of the BOCES, except for fiduciary activities. Eliminations have been made to minimize the double counting of interfund transactions. Governmental activities generally are financed through state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The Statement of Net Position presents the financial position of the BOCES at fiscal year-end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the BOCES' governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants, contributions, and other revenues that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, primarily State aid, are presented as general revenues.

(b) Fund Financial Statements

The fund financial statements provide information about the BOCES' funds, including fiduciary funds. Separate statements for each fund category, governmental and fiduciary, are presented. The emphasis of fund financial statements is on major governmental funds as defined by GASB, each displayed in a separate column. All funds of the BOCES are displayed as major funds. The BOCES' financial statements reflect the following major fund categories:

General Fund: This is the BOCES primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Revenue Funds:

- Special Aid Fund: This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.
- School Lunch Fund: This fund accounts for the activities of the school lunch operations.

Capital Projects Fund: This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

Notes to the Financial Statements June 30, 2020

- (c) Fiduciary Funds: are used to account for and report on activities in which the BOCES acts as trustee or agent for resources that belong to others. These activities are not included in the BOCES-wide financial statements, because their resources do not belong to the BOCES, and are not available to be used. There are two classes of fiduciary funds:
- Private Purpose Trust Funds: These funds are used to account for and report on trust arrangements in which principal and income benefits annual third-party awards and scholarships for students. Established criteria govern the use of the funds and members of the BOCES or representatives of the donors may serve on committees to determine who benefits.
- Agency funds: These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the BOCES as agent for various student groups or extraclassroom activity funds and for payroll or employee withholding.

Basis of Accounting and Measurement Focus

The BOCES-wide and fiduciary fund financial statements are reported on the accrual basis of accounting using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the BOCES gives or receives value without directly receiving or giving equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the related expenditures are incurred.

The fund statements are reported on the modified accrual basis of accounting using the current financial resources measurement focus. Revenues are recognized when measurable and available. The BOCES considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Interfund Transactions

The operations of the BOCES include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The BOCES typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the BOCES-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

Notes to the Financial Statements June 30, 2020

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables are netted on the accompanying governmental funds balance sheet when it is the BOCES' practice to settle these amounts at a net balance based upon the right of legal offset.

A detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity is provided subsequently in these Notes to Financial Statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, postemployment benefits, potential contingent liabilities and useful lives of long-lived assets.

Cash and cash equivalents/investments

The BOCES' cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the School BOCES' investment policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral and/or letter of credit are required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and BOCES.

The BOCES' participates in the New York Cooperative Liquid Assets Securities System (NYCLASS), a multi-municipal cooperative investment pool agreement pursuant to New York State General Municipal Law, whereby it holds a portion of the investments in cooperation's with other participants. At June 30, 2020, the BOCES' held \$15,372,211 in investments consisting of various investments in securities issued by the United States and its agencies. NYCLASS is rated 'AAAm' by S&P Global Ratings. The investments are highly liquid and the amount held represents the cost of the investment pool shares, which are considered to approximate fair value. Due to the highly liquid nature of these investments, they are classified as cash equivalents in the financial statements. Additional information concerning NYCLASS, including the annual report, can be found on its website at www.newyorkclass.org.

Receivables

Receivables are shown net of an allowance for uncollectibles. There was an allowance for uncollectibles at June 30, 2020 in the amount of \$414,737.

Inventories

Inventories of food in the school lunch fund are recorded at cost on a first-in, first-out basis or in the case of surplus food donated by the U.S. Department of Agriculture, at the BOCES' assigned value, which approximates market.

Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Notes to the Financial Statements June 30, 2020

Deferred outflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The BOCES has two items that qualifies for reporting in this category. The first item is related to pensions reported in the BOCES-wide Statement of Net Position. This represents for pensions the effect of the net change in the BOCES' proportion of the collective net pension asset or liability and difference during the measurement period between the BOCES' contributions and its proportion share of total contributions not included in pension expense. The second item is related to OPEB reported in the BOCES-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

Capital Assets

Capital assets are reflected in the BOCES-wide financial statements. Capital assets are reported at actual cost, when the information is available, or estimated historical cost based on professional third-party information. Donated assets are reported at estimated fair market value at the date of donation.

All capital assets, except land and construction in progress, are depreciated on a straight-line basis over their estimated useful lives. Capitalization thresholds, the dollar value above which asset acquisitions are added to the capital asset accounts, and estimated useful lives of capital assets as reported in the BOCES-wide statements are as follows:

	Capitalization Threshold		Estimated Useful Life	
Buildings and improvements	\$	500	7-50 Years	
Furniture and equipment	\$	500	5-30 Years	
Computers (Desktops and Laptops)	\$	1	5 Years	

Unearned revenue

Unearned revenue arises when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when resources are received by the BOCES before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the BOCES has legal claim to the resources, the liability for unearned revenues is removed and revenues are recognized.

Notes to the Financial Statements June 30, 2020

Deferred inflows of resources

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The BOCES has two items that qualify for reporting in this category. The first item is related to pensions reported in the BOCES-wide Statement of Net Position. This represents the effect of the net change in the BOCES' proportion of the collective net pension liability (ERS and TRS Systems) and difference during the measurement periods between the BOCES' contributions and its proportion share of total contributions to the pension systems not included in pension expense. The second item is related to OPEB reported in the BOCES-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

Vested employee benefits - compensated absences

Compensated absences consist of unpaid accumulated sick leave and vacation time.

Sick leave eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Upon retirement, resignation or death, employees may be eligible to receive a portion of the value of unused accumulated sick leave.

Vacation eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB, the liability has been calculated using the vesting method and an accrual for that liability is included in the BOCES-wide financial statements. The compensated absences liability is calculated based on the terms of the collective bargaining agreements and individual employment contracts in effect at year-end.

In the fund financial statements only, the amount of matured liabilities is accrued within the general fund based upon expendable and available financial resources.

Other benefits

Eligible BOCES employees participate in the New York State Teachers' Retirement System or the New York State Employees' Retirement System.

In addition to providing pension benefits, the BOCES provides post-employment health insurance coverage and survivor benefits for retired employees and their survivors. Collective bargaining agreements determine if BOCES' employees are eligible for these benefits if they reach normal retirement age while working for the BOCES. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing postemployment benefits is shared between the BOCES and the retired employee. Other postemployment benefit costs are measured and disclosed using the accrual basis of accounting.

Notes to the Financial Statements June 30, 2020

Short-term debt

The BOCES may issue revenue anticipation notes (RAN) in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RAN's represent a liability that will be extinguished by the use of expendable, available resources of the fund issuing the notes. The BOCES issued a RAN for \$30 million during the year ended June 30, 2020.

Accrued liabilities and long-term obligations

Payables, accrued liabilities and long-term obligations are reported in the BOCES-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the BOCES' future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Equity classifications

(a) BOCES-wide statements

In the BOCES-wide statements, there are three classes of net position:

Net investment in capital assets – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted net position – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – reports all other net positions that do not meet the definition of the above classification and are deemed to be available for general use by the BOCES.

(b) Fund statements

The BOCES implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

The following classifications describe the relative strength of the spending constraints:

Nonspendable

This category includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. This category consists of the inventories in the School Lunch Fund.

Notes to the Financial Statements June 30, 2020

Restricted resources

This category includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. Generally, the BOCES' policy is to use restricted resources only when appropriated by the Board of Education. When an expenditure is incurred for purposes for which both restricted and unrestricted net position are available, the BOCES' policy concerning which to apply first varies with the intended use, and with associated legal requirements.

Unemployment insurance reserve

Unemployment insurance reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the BOCES elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. The reserve is accounted for in the General Fund.

Workers compensation reserve

Workers' compensation reserve (GML §6-j) is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the General Fund.

Employee benefit accrued liability

According to General Municipal Law §6-p, this reserve must be used for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the General Fund.

Reserve for employees' retirement system contributions

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions. The reserve must be accounted for separate and apart from all other funds, and a detailed report of the operation and condition of the fund must be provided to the Board. This reserve is accounted for in the General Fund. TRS is used for pension costs related to TRS and is a sub-reserve of ERS.

Notes to the Financial Statements June 30, 2020

Reserve for career education instructional equipment

Career Education Instructional Equipment Reserve (EL §1950(4)(ee)) is used for the purpose of the replacement and purchase of advanced technology equipment used in instructional programs. This reserve may be established upon approval of a majority of the component districts of the BOCES and the BOCES itself. Fund are determine by including depreciation expenses for the career education instructional equipment used in providing instructional services pursuant to a formula prescribed by the Commissioner of Education and from revenues from the sale of such equipment. This reserve is accounted for in the Capital Projects Fund.

Special aid fund

This fund includes amounts for which constraints have been placed on the use of the resources either grantors, contributors, or laws or regulations of other governments.

Restricted for scholarships

Reserve for scholarships is used to account for monies donated for scholarship purposes, net of earnings and awards. The reserve is accounted for in the private purpose trust fund.

Unrestricted resources

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, BOCES considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless BOCES has provided otherwise in its commitment or assignment actions.

- Committed Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the BOCES highest level of decision making authority, i.e., the Board of Education. The BOCES has no committed fund balances as of June 30, 2020.
- Assigned Includes amounts that are constrained by the BOCES' intent to be used for specific purposes, but
 are neither restricted nor committed. Intent is expressed by (a) the Board of Education or (b) the designated
 official, such as the BOCES Purchasing Agent, to which the Board has delegated the authority to assign
 amounts to be used for specific purposes.
- Unassigned Includes all other fund net positions that do not meet the definition of the above four classifications and are deemed to be available for general use by the BOCES. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in the respective fund.

Notes to the Financial Statements June 30, 2020

Budgetary Procedures and Budgetary Accounting

The BOCES administration prepares a proposed administrative, capital and program budget, as applicable, for approval by the members of the Board of Education for the General Fund, the only fund with a legally adopted budget. The budget is adopted annually on a basis consistent with accounting principles generally accepted in the United States of America. A tentative administrative budget is provided to the component districts for adoption by resolution. Approval of the tentative administrative budget requires the approval of a majority of the component school boards actually voting. During the current year, the administrative budget was approved by a majority of its voting component school boards. Appropriations are adopted at the program line item level. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior year and any appropriated reserve funds. Appropriations established by adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations lapse at the fiscal year end.

Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

The following supplemental appropriation occurred during the year:

Adopted budget		\$ 366,627,818
Encumbrances from prior year		4,603,610
Original Budget		371,231,428
Shared services budget revisions:		
Administration	(207,855)	
Occupational instruction	1,349,563	
Instruction for special needs	5,053,827	
Itinerant services	377,960	
General instruction	1,621,910	
Instructional support	4,040,251	
Other services	8,818,378	
Internal services	2,985,844	24,039,878
Revised budget		\$ 395,271,306

Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

Notes to the Financial Statements June 30, 2020

2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND BOCES WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the BOCES wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic resource management focus of the Statement of Activities, compared with the current financial resource management focus of the governmental funds.

Total Fund Balances of Governmental Funds vs. Net position of Governmental Activities

Total fund balances of the BOCES' governmental funds differ from net position of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheet.

Statement of Revenue, Expenditures, and Changes in Fund Balance vs. Statement of Activities

Differences between the governmental funds statement of revenue, expenditures, and changes in fund balance and

the statement of activities fall into one of five broad categories.

(a) Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenue only when it is considered available, whereas the statement of activities reports revenue when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the statement of activities.

(b) Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.

(c) Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.

(d) Pension differences

Pension differences occur as a result of changes in the BOCES' proportion of the collective net pension asset/liability and differences between the BOCES' contributions and its proportionate share of the total contributions to the pension systems.

(e) Other postemployment benefits differences

OPEB differences occur as a result of changes in the BOCES' total OPEB liability and differences between the BOCES' contributions and OPEB expense.

Notes to the Financial Statements June 30, 2020

3. CUSTODIAL AND CONCENTRATION OF CREDIT RISK

The BOCES' investment policies are governed by state statutes and BOCES' policy. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its Agencies, obligations of New York State and its municipalities, and letters of credit in accordance with Board policy. Investments are stated at fair value.

Custodial credit risk is the risk that in the event of a bank failure, the BOCES' deposits may not be returned to it. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either:

- A. Uncollateralized
- B. Collateralized by securities held by the pledging financial institution or
- C. Collateralized by securities held by the pledging financial institution's trust department or agent but not the BOCES' name

At June 30, 2020, the reported amount of the BOCES' deposits was \$70,442,951 and the bank balances of \$107,789,933. Of the bank balances, \$1,131,238 was covered by federal depository insurance and the remaining \$106,658,695 was covered by collateral held in the BOCES' name.

4. RESTRICTED CASH

Restricted cash and cash equivalents of \$1,784,064 in the General Fund represents funds held for future Occupational Education Equipment expenditures.

Restricted cash and cash equivalents of \$136,341 in the fiduciary fund represents various expendable trust funds held by the BOCES.

5. DUE FROM OTHER GOVERNMENTS

Due from other governments at June 30, 2020, consisted of:

General Fund:	
New York State	\$ 20,288,307
Special Aid Fund:	
New York State Education Department	3,884,029
ACCES	97,895
Suffolk County	37,424
Nassau County	1,031
New York City	3,400
NYS OPWDD	6,518
NYS OFCS	12,819
NYS DOL	228,490
School Lunch Fund:	
Federal and State School Lunch Reimbursements	
	120,729
Total	\$ 24,680,642

Notes to the Financial Statements June 30, 2020

6. CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2020, were as follows:

	July 1, 2019			June 30, 2020
	Balance	Additions	Deletions	Balance
Governmental activities				
Capital assets that are not depreciated:				
Land	\$ 6,306,650	\$ -	\$ -	\$ 6,306,650
Construction in progress	7,014,371	-	7,014,371	-
Technology in progress	882,242	302,494	882,241	302,495
Total non-depreciable historical cost	14,203,263	302,494	7,896,612	6,609,145
Capital assets that are depreciated:				
Buildings and improvements	69,044,968	7,447,557	33,924	76,458,601
Furniture and equipment	72,078,834	9,202,366	5,648,711	75,632,489
Total depreciable historical cost	141,123,802	16,649,923	5,682,635	152,091,090
Less accumulated depreciation:				
Buildings and improvements	43,142,276	1,954,158	700	45,095,734
Furniture and equipment	43,045,835	9,041,986	5,006,859	47,080,962
Total accumulated depreciation	86,188,111	10,996,144	5,007,559	92,176,696
Total depreciable cost, net	54,935,691	5,653,779	675,076	59,914,394
Total capital assets, net	\$ 69,138,954	\$ 5,956,273	\$ 8,571,688	\$ 66,523,539

Depreciation expense for the year ended June 30, 2020, was allocated to specific functions as follows:

Administration	\$ 1,238,531
Occupational instruction	1,108,493
Instruction for special education	5,434,462
Itinerant services	189,185
General instruction	353,267
Instruction support	709,296
Other services	1,927,286
Food services	35,624
	\$ 10,996,144

Notes to the Financial Statements June 30, 2020

7. INTERFUND BALANCES AND ACTIVITY

Interfund balances and activities at June 30, 2020, are as follows:

	Interfund					Interfund			
	R	eceivable		Payable		Revenue	Е	xpenditure	
General fund	\$	-	\$	9,124,590	\$	437,525	\$	2,477,282	
Special aid fund		-		833,358		-		437,525	
School lunch fund		218,371		-		227,282		-	
Capital fund		4,961,942		-		2,250,000		-	
Agency		4,777,635		-		-		_	
Total governmental activities	\$	9,957,948	\$	9,957,948	\$	2,914,807	\$	2,914,807	

- The BOCES typically transfers from the General Fund to the School Lunch Fund and the Capital Fund in accordance with the adopted budget.
- The BOCES transferred \$2,250,000 from the General Fund to the Capital Fund to fund the local portion of capital projects.
- The BOCES transferred \$227,282 from the General Fund to the School Lunch Fund to supplement operations.
- The BOCES transferred \$437,525 from the Special Aid Fund to the General Fund to close completed projects.
- The Interfund receivables and payables exist for cash flow purposes. The balances are expected to be repaid during the next fiscal year.

8. SHORT-TERM LIABILITIES

Transactions in short-term debt for the year ended June 30, 2020 are as follows:

			Beginning						
	Maturity	Interest Rate	Balance		Issued	Redeemed		En	ding Balance
RAN	4/30/2021	2.50%	\$	-	\$ 15,000,000	\$	-	\$	15,000,000
RAN	10/30/2020	2.50%		-	15,000,000		-		15,000,000
			\$	-	\$ 30,000,000	\$	-	\$	30,000,000

9. LONG-TERM LIABILITIES

Long-term liability balances and activity for the year are summarized below:

									Αı	mounts Due
		Beginning							١	Within One
		Balance		Issued		Redeemed	En	ding Balance		Year
Government activities:								_		
Installment Purchase Debt	\$	4,717,204	\$	3,901,212	\$	2,082,369	\$	6,536,047		1,838,439
Deferred Payment Plan		2,657,254		1,550,723		1,432,389		2,775,588		1,107,397
Energy Performance										
Contract		481,730		-		235,447		246,283		246,282
Other Liabilities:										
Compensated absences		37,130,488		4,621,068		4,773,968		36,977,588		3,159,109
Workers' compensation		5,188,071		-		2,707,697		2,480,374		-
Total other										
postemployment benefits										
		867,753,299	_	161,173,859	_	28,205,211	_1	,000,721,947		
Total Governmental activities	\$!	917,928,046	\$	171,246,862	\$	39,437,081	\$ 1	,049,737,827	\$	6,351,227

Notes to the Financial Statements June 30, 2020

The General Fund has typically been used to liquidate long-term liabilities.

The BOCES has entered into various municipal lease and option agreements for the purpose of acquiring computer equipment necessary to provide instructional computer services. The BOCES is obligated under certain installment purchase agreements at various incremental interest rates as listed below. At June 30, 2020, assets purchased under the agreements totaled \$37,113,438, and total accumulated depreciation for these assets was \$25,370,631.

The BOCES' installment purchase debt agreements are payable in 60 monthly installments or less and bear interest as stated below.

				Outstanding at
Description	Issue Date	Final Maturity	Interest Rate	06/30/2020
Sayville	2/16	11/20	1.76%	\$ 51,781

Less: Interest accrued in the pr	rior	year	(4,201)	
Plus: Interest accrued in the current year			 2,148	
Total interest expense on long-term debt			\$ 267,809	

10. PENSION PLANS

A. New York State and Local Employees' Retirement System (ERS)

Plan Description

The BOCES participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer public employee retirement system. The system provides retirement benefits as well as death and disability benefits.

The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four-year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November, 2014, he was elected for a new term commencing January 1, 2015. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The BOCES also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance.

The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

Contributions

The System is noncontributory for employees who joined prior to July 28, 1976. For employees who joined after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary for the first ten years of membership. Employees who joined on or after January 1, 2010 are required to contribute 3% to 6% of their annual salary for their entire working career. Under the authority of the RSSL, the Comptroller certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. All required contributions for the NYSERS fiscal year ended March 31, 2020, were paid.

Notes to the Financial Statements June 30, 2020

The required contributions for the current year and two preceding years were:

	 Amount
2018	\$ 6,935,011
2019	\$ 6,832,422
2020	\$ 6,722,822

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the BOCES reported a liability of \$40,353,725 for its proportionate share of the net pension liability. The net pension liability was measured as of March 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of April 1, 2019. The BOCES' proportion of the net pension liability was based on a projection of the BOCES' long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2020 and 2019, the BOCES' proportion was 0.1523899% and 0.1542738%, respectively.

For the year ended June 30, 2020, the BOCES recognized pension expense of \$14,470,712. At June 30, 2020, the BOCES reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		
	(Outflows of	Defe	rred Inflows
		Resources	of I	Resources
Differences between expected and actual experience	\$	2,374,980	\$	-
Changes of Assumptions		812,533		701,609
Net difference between projected and actual earnings on				
pension plan investments		20,687,281		-
Changes in proportion and differences between the BOCES,				
contributions and proportionate share of contributions		1,514,293		230,817
Contributions subsequent to the measurement date		1,665,878		
	\$	27,054,965	\$	932,426

At June 30, 2020, \$1,665,878 was reported as deferred outflows of resources related to pensions resulting from BOCES contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ended March 31:		Amount
2021	\$	4,380,381
2022		6,213,428
2023		7,719,957
2024		6,142,895
Thereafter		-
	\$	24.456.661

Notes to the Financial Statements June 30, 2020

Actuarial Assumptions

The total pension liability at March 31, 2020 was determined by using an actuarial valuation as of April 1, 2019, with update procedures used to roll forward the total pension liability to March 31, 2020. The actuarial valuation used the following actuarial assumptions:

Actuarial cost method	Entry age normal
Investment rate of return (net of investment expense, including inflation)	6.80%
Cost of living adjustment	1.30%
Salary scale	4.20%
Inflation rate	2.50%

Annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2018.

The actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

The long term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized below:

	Target	Long-term expected real rate of return in
Asset Type	Allocations in %	%
Domestic equity	36.0	4.05
International equity	14.0	6.15
Private equity	10.0	6.75
Real estate	10.0	4.95
Absolute return strategies	2.0	3.25
Opportunistic portfolio	3.0	4.65
Real asset	3.0	5.95
Bonds and mortgages	17.0	0.75
Cash	1.0	-
Inflation indexed bonds	4.0	0.50
	100	

Notes to the Financial Statements

June 30, 2020

Discount Rate

The discount rate used to calculate the total pension liability was 6.8%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the ERS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset/liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the BOCES' proportionate share of the net pension liability calculated using the discount rate of 6.8 percent, as well as what the BOCES' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.8 percent) or 1-percentage-point higher (7.8 percent) than the current rate:

	Current			
	1% Decrease	Assumption	1% Increase	
	(5.8%)	(6.8%)	(7.8%)	
Proportionate Share of Net Pension Liability	\$ 74,060,479	9 \$ 40,353,725	\$ 9,309,662	

Pension Plan Fiduciary Net Position

The components of the current-year net pension liability of the employers as of March 31, 2020, were as follows (in thousands):

Total pension liability	\$ 194,596,261
Net position	 168,115,682
Net pension liability (asset)	\$ 26,480,579
ERS net position as a percentage of total pension liability	86.39%

Payables to the Pension Plan

The BOCES has recorded an amount due to ERS in amount of \$1,665,878 at June 30, 2020. This amount represents the three months of the BOCES' fiscal year that will be covered in the ERS 2019-2020 billing cycle and has been accrued as an expenditure in the current year.

B. New York State Teachers' Retirement System (TRS)

Plan Description

The BOCES participates in the New York Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer public employee retirement system. The system provides retirement benefits as well as death and disability benefits.

Notes to the Financial Statements June 30, 2020

The TRS was created and exists pursuant to Article 11 of the New York State Education Law. TRS is administered by the system and governed by a ten-member board to provide these benefits to teachers employed by participating employers in the State of New York, excluding New York City. The System provides benefits to plan members and beneficiaries as authorized by the New York State Law and may be amended only by the Legislature with the Governor's approval. Benefit provisions vary depending on date of membership and membership class (6 tiers). TRS issues a publicly available financial report that contains basic financial statements and required supplementary information for the System. For additional plan information please refer to the NYSTRS Comprehensive Annual Financial Report which can be found on the TRS website located at www.nystrs.org.

Contributions

Pursuant to Article 11 of the New York State Education Law, employers are required to contribute at an actuarially determined rate adopted annually by the Retirement Board. Tier 3 and Tier 4 members who have less than 10 years of service or membership are required by law to contribute 3% of salary to the System. Tier 5 members are required by law to contribute 3.5% of salary throughout their active membership. Tier 6 members are required by law to contribute between 3% and 6% of salary throughout their active membership in accordance with a schedule based upon salary earned. Pursuant to Article 14 and Article 15 of the Retirement and Social Security Law, those member contributions are used to help fund the benefits provided by the System. However, if a member dies or leaves covered employment with less than 5 years of credited service for Tiers 3 and 4, or 10 years of credited service for Tiers 5 and 6, the member contributions with interest calculated at 5% per annum are refunded to the employee or designated beneficiary. Eligible Tier 1 and Tier 2 members may make member contributions under certain conditions pursuant to the provisions of Article 11 of the Education Law and Article 11 of the Retirement and Social Security Law. Upon termination of membership, such accumulated member contributions are refunded. At retirement, such accumulated member contributions can be withdrawn or are paid as a life annuity.

The required employer contributions for the current year and two preceding years were:

	 TRS
2018	\$ 8,398,096
2019	\$ 9,460,916
2020	\$ 7.808.365

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the BOCES reported an asset of \$13,864,956 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2018. The BOCES' proportion of the net pension asset was based on a projection of the BOCES' long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2020, the BOCES' proportion was 0.533677 percent, which was an increase of 0.007582 percent from its proportion of 0.526095 percent as of June 30, 2019.

Notes to the Financial Statements June 30, 2020

For the year ended June 30, 2020, the BOCES recognized a pension expense of \$17,032,764. At June 30, 2020, the BOCES reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

D = £ = = ...

	Deferred		
	Outflows of	Def	ferred Inflows
	 Resources	0	f Resources
Differences between expected and actual experience	\$ 9,395,926	\$	1,031,025
Changes of Assumptions	26,192,757		6,386,536
Net difference between projected and actual earnings on			
pension plan investments	-		11,118,979
Changes in proportion and differences between the BOCES,			
contributions and proportionate share of contributions	369,787		813,834
Contributions subsequent to the measurement date	 7,808,365		
	\$ 43,766,835	\$	19,350,374

\$7,808,365 reported as deferred outflows of resources related to pensions resulting from BOCES contributions subsequent to the measurement date as of June 30, 2019 will be recognized as a reduction of the net pension asset in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

6,159,063 284,379 6,136,327

2020	\$
2021	
2022	
2023	

Plan's Year Ended June 30:

2023 4,126,729 2024 442,155 Thereafter (540,557)

\$ 16,608,096

Actuarial Assumptions

The total pension liability at June 30, 2019 measurement date was determined by using an actuarial valuation as of June 30, 2018, with update procedures used to roll forward the total pension liability to June 30, 2019. The actuarial valuation used the following actuarial assumptions.

Investment rate of return

7.10% compounded annually, net of pension plan investment expense, including inflation.

Salary scale

Rates of increase differ based on service.

They have been calculated based upon recent NYSTRS member experience.

Service	Rate
5	4.72%
15	3.46%
25	2.37%
35	1.90%

Notes to the Financial Statements June 30, 2020

Projected COLAs 1.3% compounded annually

Inflation rate 2.2%

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP2018, applied on a generational basis. Active member mortality rates are based on plan member experience.

The actuarial assumptions were based on the results of an actuarial experience study for the period of July 1, 2009 and June 30, 2014.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations . ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of the measurement date of June 30, 2019 are summarized in the following table:

		Long-term
		expected real
	Target	rate of return in
Asset Type	Allocations in %	%
Domestic equity	33.0	6.3
International equity	16.0	7.8
Global equity	4.0	7.2
Real estate equity	11.0	4.6
Private equity	8.0	9.9
Domestic fixed income	16.0	1.3
Global bonds	2.0	0.9
High-yield bonds	1.0	3.6
Private debt	1.0	6.5
Real estate debt	7.0	2.9
Cash equivalents	1.0	0.3
	100	

Notes to the Financial Statements

June 30, 2020

Discount Rate

The discount rate used to calculate the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from BOCES will be made at statutorily required rates, actuarially determined. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents BOCES' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.10 percent, as well as what the BOCES' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

		Current	
	1% Decrease	Assumption	1% Increase
	(6.10%)	(7.10%)	(8.10%)
Proportionate Share of Net Pension Liability (asset)	\$ 62,584,959	\$ (13,864,956)	\$ (77,997,806)

Pension Plan Fiduciary Net Position

The components of the current year net pension liability (asset) of the employers as of June 30, 2019, were as follows (amounts in thousands):

Total pension liability	\$	119,879,474
Net position	_	122,477,481
Net pension liability (asset)	\$	(2,598,007)
NYSTRS net position as a percentage of total pension liability		102.17%

Payable to the Pension Plan

The BOCES has recorded an amount due to TRS in amount of \$8,765,150 in the General Fund at June 30, 2020. This amount represents \$7,808,365 BOCES contribution and \$956,785 employees contribution for the 2019-2020 fiscal year that will be made in 2020-2021 and has been accrued as an expenditure in the current year.

Notes to the Financial Statements June 30, 2020

11. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

(a) Plan Description

The BOCES provides postemployment health insurance coverage to retired employees in accordance with the provisions of various employment contracts. The BOCES provides medical, medigap, and Medicare part B reimbursement (the healthcare plan) coverage to retired employees in accordance with employment contracts. No assets are accumulated in a trust that meets the criteria of GASB 75, paragraph 4.

(b) Benefits Provided

The BOCES provides medical and prescription drug benefits to its eligible retirees. Dental, vision, and life insurance benefits are available with select classes of employees. The benefit levels, employee contributions and employer contributions are governed by the BOCES' contractual agreements. The Plans can be amended by action of the BOCES through agreements with the bargaining units.

The BOCES provides retirees in the following categories life insurance in retirement:

Administrative and Supervisory, Central Administration, including the Superintendent, Non-represented Certificated Administrators, Non-represented Technical Administrators, Non-represented Clerical, Non-represented Confidential Clerical, Non-represented Directors and Non-represented Educators. The provider is the Standard Life Insurance Company of New York.

Medical, prescription drug and life insurance benefits are offered to retirees on a BOCES-subsidized basis. The valuation measures only the portion of the cost that is borne by the BOCES, which in most cases is 100%. Each employee category has its own benefit package, eligibility rules and cost-sharing structure.

(c) Employees Covered by Benefit Terms

At July 1, 2019, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefit

payments	2,562
Active employees	2,118
Total participants	4,680

(d) Total OPEB Liability

The BOCES' total OPEB liability of \$1,000,721,947 was measured as of June 30, 2020 and was determined by an actuarial valuation as of July 1, 2019.

Notes to the Financial Statements June 30, 2020

(e) Changes in Total OPEB Liability

Changes in the BOCES' total OPEB liability were as follows:

		Total OPEB
		Liability
Balance at June 30, 2019	\$	867,753,299
Changes for the year:		
Service cost		28,345,135
Interest on total OPEB liability		30,874,099
Changes of the benefit terms		-
Effect of demographic gains or losses		(75,244,387)
Changes in assumptions or other inputs		177,199,012
Differences between expected and actual experience		-
Benefit payments		(28,205,211)
Net changes		132,968,648
Balance at June 30, 2020	\$:	1,000,721,947

(f) Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the BOCES, as well as what the BOCES' total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.21 percent) or 1 percentage point higher (3.21 percent) than the current discount rate:

	Current		
	1% Decrease	Discount	1% Increase
	(1.21%)	(2.21%)	(3.21%)
Total OPEB Liability	\$ 1,178,590,032	\$ 1,000,721,947	\$ 859,093,635

(g) Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the BOCES, as well as what the BOCES' total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (5.60 declining to 3.10 percent) or 1 percentage point higher (7.60 declining to 5.10 percent) than the current healthcare cost trend rate:

	Healthcare			
	Current			
	1% Decrea	ase	Discount	1% Increase
Total OPEB Liability	\$ 838,741	,205 \$	1,000,721,947	\$ 1,212,094,164

Sensitivity analysis for healthcare cost inflation (trend) rate is illustrated as of end of year.

Notes to the Financial Statements

June 30, 2020

(h) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the BOCES recognized OPEB expense of \$76,121,586. At June 30, 2020, the BOCES reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred		
	Outflows of	Def	ferred Inflows
	 Resources	0	f Resources
Differences between expected and actual experience	\$ -	\$	64,013,881
Changes of Assumptions	 185,197,239		20,861,290
	\$ 185,197,239	\$	84,875,171

Contributions subsequent to the measurement date will be recognized in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Plan's Year	Ended June 30:
-------------	----------------

2021	\$ 16,902,352
2022	16,902,352
2023	16,902,352
2024	17,871,834
2025	21,091,201
Thereafter	10,651,977
	\$ 100,322,068

Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2019 rolled forward to June 30, 2020, the measurement date. The following actuarial assumptions applied to all periods in the measurement, unless otherwise specified:

Valuation date	July 1, 2019
Measurement date	June 30, 2020
Inflation rate	2.60%

Salary increases, including Vary by pension retirement system (New York State Teachers Retirement System (TRS)

wage inflation or Employees retirement System (ERS))

Healthcare cost trends 6.60% for 2020 decreasing to an ultimate rate of 4.1% by 2076

Discount rate 2.21%

Mortality rates Mortality rates were based on April 1, 2010 - March 31, 2015 NYSLRS experience with

adjustments for mortality improvements based on the Society of Actuaries' Scale MP-

2014.

Notes to the Financial Statements June 30, 2020

The following changes in actuarial assumptions have been made since the prior measurement date:

Changes of assumptions and other inputs reflect a change in the discount rate from 3.51% in June 30, 2019 to 2.21% percent in June 30, 2020.

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

Cash Flows – The cash flows into and out of the Plan are expected to be consistent with the above assumptions and Plan descriptions of participant contributions.

12. RISK MANAGEMENT

The BOCES is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; and natural disasters. These risks are covered by a combination of self-insurance reserves and commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded available reserves and commercial insurance coverage for the past three years.

Workers' Compensation Plan

The BOCES has established a self-insured plan for risks associated with workers' compensation claims. Liabilities of the plan are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for reported and unreported claims which were incurred on or before year end but not reported (IBNR). Claims activity is summarized below:

	<u>2020</u>	<u>2019</u>
Unpaid claims at beginning of year	\$ 5,188,071	\$ 5,228,775
Incurred claims and claim adjustment expenses	-	2,971,901
Claim payments	 (2,707,697)	(3,012,605)
Unpaid claims at year end	\$ 2,480,374	\$ 5,188,071

Health Benefits Program

The BOCES participates in a health benefit program for selected employees through the East End Health Plan, a consortium of school districts from the east end of Long Island. The benefit program's administrator is responsible for the approval, processing and payment of claims. This is billed to the BOCES at an established rate based on the number of participants. The BOCES is responsible for contributions to cover their share of the benefits and administrative costs. The trust for the plan reports on a calendar year end. In the event the plan experiences a shortfall, a special assessment against participating districts may be imposed. The BOCES is not aware of any additional assessments related to claims incurred through June 30, 2020.

Notes to the Financial Statements

June 30, 2020

13. OPERATING LEASES

Short-term operating leases, predominantly of one to five-year duration, have been negotiated for the use of certain classrooms and facilities. All lease payments are expensed when paid and totaled \$4,300,733 for the year. Future minimum rental payments under the terms of the renewal lease are payable as follows:

Plan's Year E	nded June	30:
---------------	-----------	-----

2021	\$ 4,051,075
2022	3,962,968
2023	2,978,320
2024	2,319,903
2025	1,584,022
2026-2030	3,455,071

14. FUND BALANCES

(a) The following is a summary of the change in General Fund restricted reserve funds during the year ended June 30, 2020:

	Beginning			Increase /		
	Balance		(Decrease)		Ending Balan	
Restricted						
General Fund						
Employee Benefit Accrued Liability	\$	37,130,488	\$	(152,900)	\$	36,977,588

Notes to the Financial Statements June 30, 2020

15. CONTINGENCIES AND COMMITMENTS

Grants

The BOCES has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the BOCES' administration believes disallowances, if any, will be immaterial.

Construction Commitments

The BOCES' Board has authorized various capital projects for a total of \$16,591,699. Through June 30, 2020, the BOCES has outstanding construction commitments of \$17,958.

Litigation

The BOCES is involved in lawsuits arising from the normal conduct of its affairs. Some of these lawsuits seek damages which may be in excess of the BOCES' insurance coverage. However, it is not possible to determine the BOCES' potential exposure, if any, at this time.

Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary integration for the General Fund, School Lunch Fund, Special Aid Funds, and Capital Projects Funds. At June 30, 2020, certain amounts which were previously restricted, committed, or assigned for specific purposes have been encumbered in the governmental funds.

Significant encumbrances included in governmental fund balances are as follows:

	General
Administration	\$ 209,122
Occupational Instruction	1,223,681
Instruction for Special Needs	1,895,528
Itinerant Services	33
General Instruction	35,407
Instruction Support	615,940
Other Services	 885,873
	\$ 4,865,584

16. NET POSITION DEFICET - BOCES-WIDE

The BOCES—wide Net Position had total net position deficit of \$776,964,186. The deficit is primarily the result of GASB Statement 75, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," which required the recognition of an unfunded liability of \$1,000,721,947 at June 30, 2020. Since New York State Laws provide no mechanism for funding the liability, the subsequent accruals are expected to increase the deficit in subsequent years.

Notes to the Financial Statements June 30, 2020

17. COVID-19 PANDEMIC

As of the date of this report, the United States is in the midst of a national health emergency related to a virus, commonly known as novel coronavirus (COVID-19). The BOCES was closed effective March 18, 2020 and did not reopen for on site instruction during the 2020 academic year, instead virtual instruction was provided. The BOCES has developed a re-opening plan for the 2020-2021 school year and will resume educating students in September. Instruction will be a mix of in-person and virtual education.

During March 2020, the NYS Governor put NYS on pause and shut down large portions of the economy. Businesses throughout NYS remain closed or are operating significantly below their capacity. New York State has publicly stated that COVID-19 will have a significant negative impact on its revenues and its 2020-21 budget. In August 2020 the New York State Department of Education notified all school districts and BOCES that effective immediately all future payments of state aid will be reduced by a 20% withholding and that this withholding may become a permanent reduction in aid.

It is difficult at this time to predict with certainty the full effect this impact may have on future State aid payments to the BOCES. However, at this time it appears that NYS will be withholding 20% of substantially all aid payments for the foreseeable future. The BOCES is currently analyzing the effects such a reduction will have on its fiscal 2021 operations.

Notes to Required Supplementary Information:

Changes of assumptions. Changes in assumptions and other inputs reflect the effects of changes in the discount rate each period. The following reflects the discount rate used each period:

Discount rate	2.21%	3.51%	3.87%

The BOCES' net OPEB liability is not funded. Therefore, the liability is the net position of the plan. The BOCES currently contributes enough money to the plan to satisfy current obligations on a pay-as-you-go basis.

The healthcare trend costs rates have been reset to an initial rate of 6.6% decreasing annually to an ultimate rate of 4.1% by 2076.

Plan Assets . No assets are accumulated in a trust that meets the criteria in GASB 75, paragraph 4, to pay related benefits.

- Contributions from the employer and any nonemployer contributing entities, and earnings thereon, must be irrevocable
- Plan assets must be dedicated to providing OPEB to Plan members in accordance with the benefit terms.
- Plan assets must be legally protected from the creditors of the employer, nonemployer contributing entities, the Plan administrator, and Plan members.

See accompanying independent auditor's report.

REQUIRED REPORTS UNDER UNIFORM GUIDANCE

Bonadio & Co., LLP Certified Public Accountants

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

November 4, 2020

To the Board Of Education of
Eastern Suffolk Board of Cooperative Education Services

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Eastern Suffolk BOCES (the BOCES), as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the BOCES' basic financial statements, and have issued our report thereon dated November 4, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statement, we considered the BOCES' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the BOCES' internal control. Accordingly, we do not express an opinion on the effectiveness of the BOCES' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatement on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statement will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the BOCES' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

November 4, 2020

To the Board of Education
Eastern Suffolk Board of Cooperative Education Services

Report on Compliance for Each Major Federal Program

We have audited the Eastern Suffolk Board of Cooperative Education Services (the BOCES) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the BOCES' major federal programs for the year ended June 30, 2020. The BOCES' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the BOCES' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the BOCES' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the BOCES' compliance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Opinion on Each Major Federal Program

In our opinion, the Eastern Suffolk Board of Cooperative Education Services complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the BOCES is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the BOCES's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the BOCES' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

1. GENERAL

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the Eastern Suffolk BOCES (BOCES), under programs of the federal government for the year ended June 30, 2020. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Because the Schedule presents only a portion of the operations of the BOCES it is not intended to and does not present the financial position, changes in net position, or cash flows for the BOCES.

2. BASIS OF ACCOUNTING

The Schedule is presented using generally accepted accounting principles, as described in the BOCES' basic financial statements.

3. INDIRECT COSTS

Indirect costs are included in the reported expenditures to the extent they are included in the financial reports used as the source for the expenditures presented.

The BOCES did not elect to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

4. MATCHING COSTS

Matching costs, i.e., the BOCES' share of certain program costs, are not included in the reported expenditures.

5. NONMONETARY ASSISTANCE

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. During the year ended June 30, 2020, the BOCES received food commodities totaling \$74,584 (CFDA No. 10.555).

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2020
