

First Supervisory District of Suffolk County
201 Sunrise Highway
Patchogue, New York 11772

Board Policy

Work Experience Opportunities

In order to provide work experience for students, real jobs may be done for organizations and private individuals in school shops and laboratories, subject to administrative controls and regulations.

The acceptance of such work shall be the decision of the instructors and building administrators who shall accept only those jobs that offer students profitable learning experiences.

Other opportunities for work experience may be provided to students in various Eastern Suffolk BOCES departments as appropriate to the program.

When an occupational program requires on-the-job training, as is the case with licensed practical nursing, the Board shall execute an agreement with the institution that will provide the training.
