

BLESSING®

A CLEAR SENSE OF PURPOSE AND UNDERSTANDING

The Blessing Company honored relationships by listening to their customers and adjusted to the changing holes of the 20th century. Blessing believed that a musical experience could change a life and a musical education could bring purpose to a life. This belief was demonstrated by providing quality musical instruments that were affordable and accessible. As a family business, Blessing helped create products that offered people a connection to others and the feeling that they belonged to something unique and special.

Today, SI Louis Music owns and operates Blessing Brass & Woodwinds. Blessing's core principles are still operative after a century in business. We are a trusted and reliable brand name that offers a solid foundation for growth,

Why Blessing? It is our wish to give every child the opportunity to discover the joy of finding their own arm and within the band experience, so they continue to grow with confidence through musical collaboration over a lifetime.
