MAP Policy (Cont.)

Dealers using store-wide or website-wide blanket discount offers, including but not limited to: "20% off any one full priced item", "10% off orders of 50 or more", or "join our mailing list for 15% off your next order" will be required to list Eastman products as being exempt from the advertised discount. A Dealer who advertises bundles of products, which include Eastman products, must advertise the price or value of the Eastman products at or above the MAP. For example, the advertised bundle should say "includes Eastman product, which has a sale price of \$XX.00 (or higher)."

The MAP policy applies only to the Dealer's advertised prices, not selling prices. Dealers are free to sell Eastman products at whatever price they choose. Eastman will monitor compliance with this policy. Eastman may, at its own discretion, stop supplying products to any Dealer found to be in violation of the MAP policy.

In the instances of discontinued product, the MAP policy shall remain in effect for the product for one full calendar year after the date of discontinuation. Please consult your sales representative for details on discontinued products.

"Demo" - policy-covered products are functionally and cosmetically "New" but may have incurred minor cosmetic damage due to shipping, handling, and minor in-store wear and tear. "Demo" products may also be considered customer-returned products if they are returned with original paperwork, packaging, and are returned within the dealer's new product return policy.

"B Stock" and "C Stock" - products which are purchased directly from Eastman Music Company at a price below standard dealer pricing to reflect a discount appropriate to the cosmetic or functional damage to the products that clearly distinguishes these products from "New" products.

"Used" - products which have been sold or rented to a customer and have obvious wear from use. These products may not be represented as "Demo," "B stock," or "C stock."
