

Board Policy

Long-Range Goals

1. Eastern Suffolk BOCES shall provide for cost effective quality services financed by local funds and other sources.
2. ESBOCES, with constituency involvement, shall provide comprehensive planning, research, and development activities in the evaluation of existing services and assist in the development and marketing of innovative programs and services.
3. ESBOCES shall maintain and further develop internal and external communication and information systems to encourage cooperative efforts and to demonstrate accountability with districts, other agencies, and community groups.
4. ESBOCES shall promote and provide leadership for equal access to services and employment without regard to race, religion, nationality, age, disability, gender, gender identity or expression, transgender status, pregnancy or marital status.
5. ESBOCES shall assist the State Education Department (SED) by performing certain state services at the local level, establishing a coordinate two-way communication system, and providing services directly to the SED.
6. ESBOCES shall promote the continued involvement of business, industry, community groups, and post-secondary institutions.
7. ESBOCES shall assert leadership in establishing, promoting, and providing the incorporation of technological advances into program and management services.
8. ESBOCES shall assert leadership in the development and maintenance of staff potential for all employees of ESBOCES, component districts, and other agencies.
