

Board Policy

Safety Conditions and Programs

Every possible precaution will be taken to protect the safety of all students, employees, visitors, and others present on Eastern Suffolk BOCES property or at ESBOCES-sponsored events.

The practice of safety will be considered an integral part of the instructional program through fire prevention and emergency procedures and drills.

General areas of emphasis in the safety program will include, but not be limited to, in-service training, plant inspection, fire prevention, accident record-keeping, and emergency procedures and drills.

Eye safety devices are to be used for the protection of employees, students and visitors, and worn in all appropriate occupational education classes and labs when activities present a potential eye hazard.
