

Board Policy

Student Calendar

In keeping with state requirements, the student calendar is to be approved by the Board. Several additional days shall be scheduled annually to accommodate emergency closings.

Working with the chief school administrators of local school districts, the District Superintendent, Chief Operating Officer, or designee shall endeavor to construct an Eastern Suffolk BOCES calendar that will be suitable for use as a standardized calendar by all local school systems in ESBOCES.

The calendar for the ensuing school year shall be presented for Board approval early in the spring of each year.

Adult Education

The calendar for adult and continuing education shall provide for fall, winter, and spring semesters offering a full range of programs suited to the needs of the geographical area and for a summer term providing limited offerings when the need is determined and it is financially sound.

The Board specifically authorizes the scheduling of adult classes on Saturdays both during the school year and summer term so that more opportunity will be available for adults to participate in the programs of their choice.

Holidays and recess periods for adult programs shall be the same as those scheduled on the regular ESBOCES calendar.
