

Board Policy

Instructional Day

Occupational and Technical Education

Daily class sessions shall be organized in such a manner as to provide quality instruction in occupational subjects to students enrolled in occupational and technical education. Instruction will be provided by qualified and appropriately certificated teachers in sessions whose daily length shall be such to meet the minimum credit requirements of New York State; programs for disabled occupational students will meet for a minimum of two and one-half (2.5) hours. When extenuating conditions necessitate a departure from this standard, exceptions may be made.

Special Education

There shall be a minimum of five and one-half (5.5) hours of direct instruction per day in the secondary programs and a minimum of five (5) hours in the elementary programs.

Adult Education

Adult Occupational and Technical education programs may be offered during daytime hours in area technical centers provided adequate instructional space is available and provided adult student arrival and departure times do not infringe on those of secondary students.
