

Board Policy

Summer Session

Authorization is granted to operate summer sessions for Special Education children and the gifted and talented students whose identification rests totally with the component district(s) seeking such sessions and to offer such other programs as may be requested by the component school districts and approved by the NYS Education Department.

Although Eastern Suffolk BOCES is permitted by the NYS Education Department to offer summer make-up opportunities for high school students in certain occupational programs (i.e., those that require State licensing to graduate), it is the policy of ESBOCES to provide make-up opportunities during the regular ESBOCES term, with only limited provision for summer session.
